Open Connection Manager

After the database has been created, a license will be required.

Click "Yes"

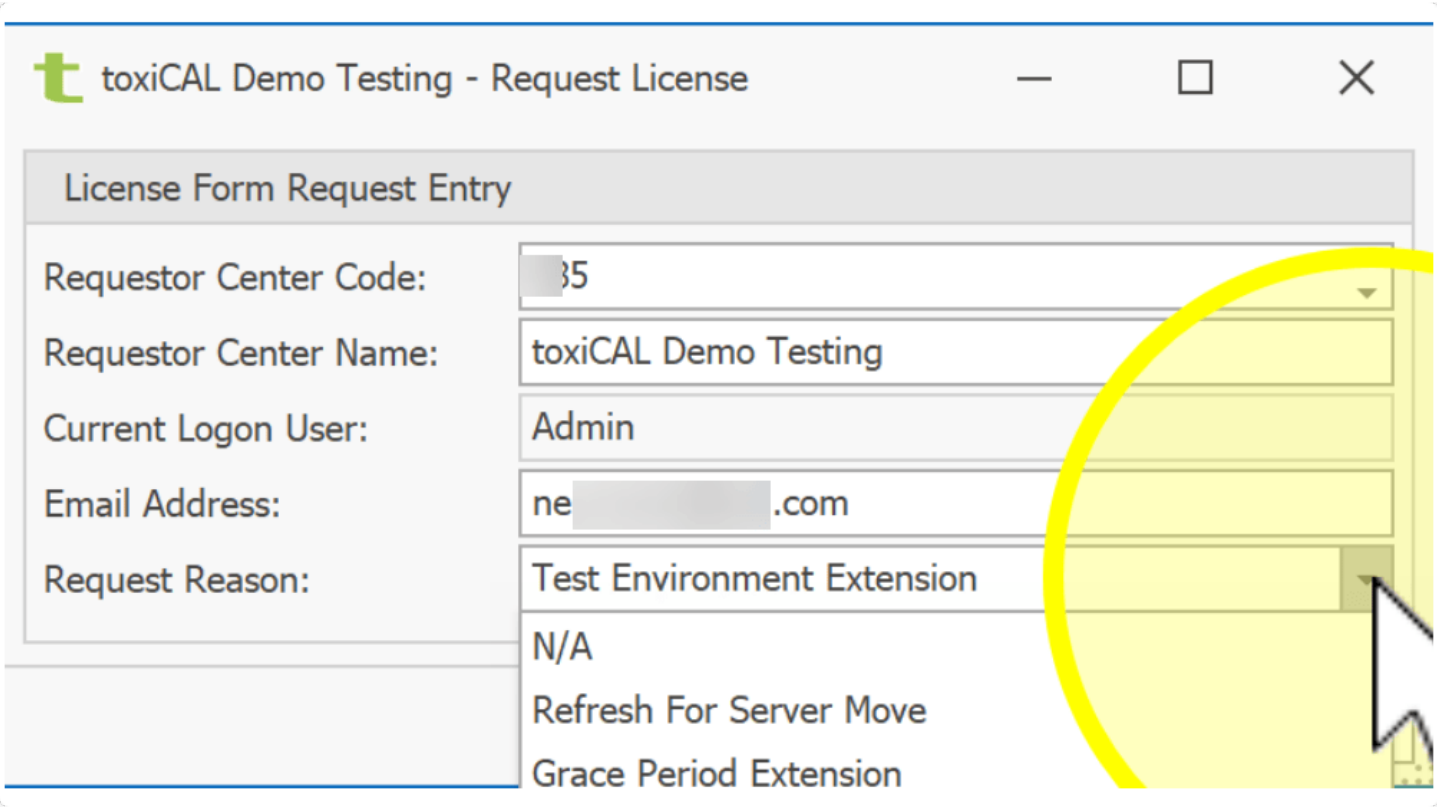

Click "Request License"

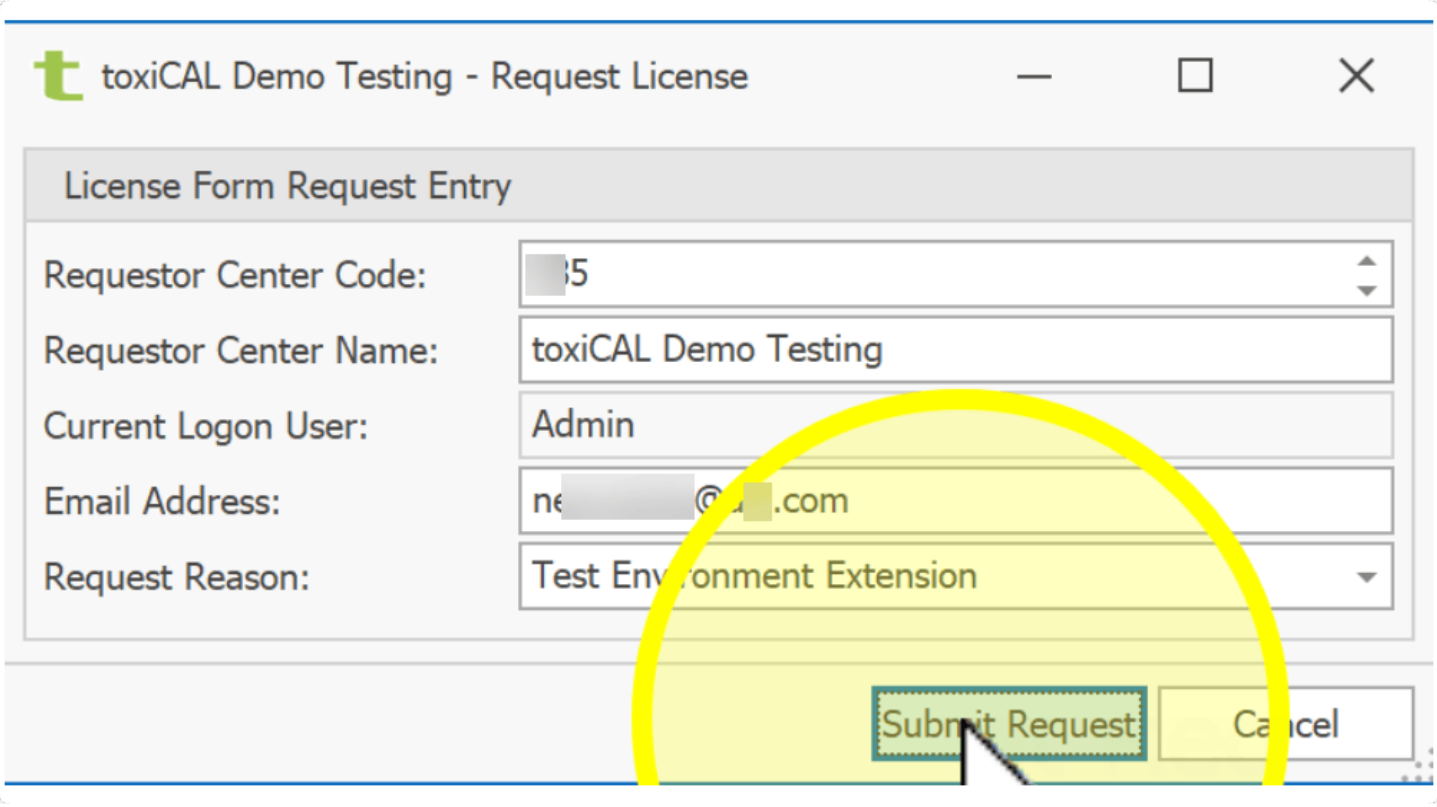

Type your center code, the center name to be licensed, and your email address.

Then choose the license type being requested.

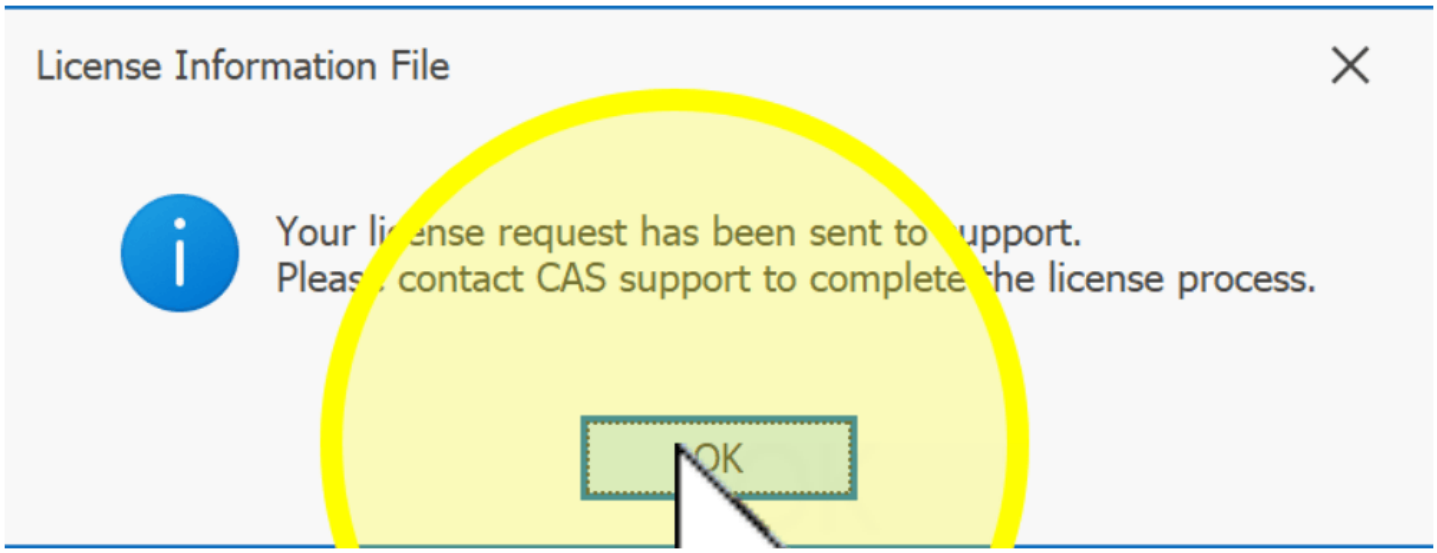

Click "Submit Request"

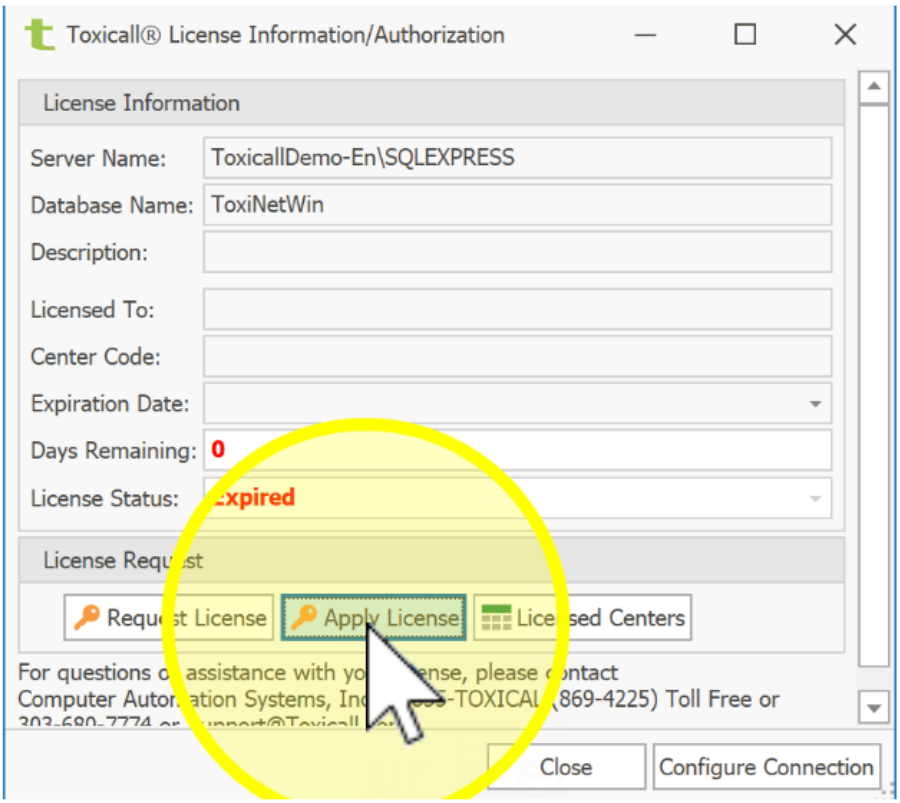

Click "OK"

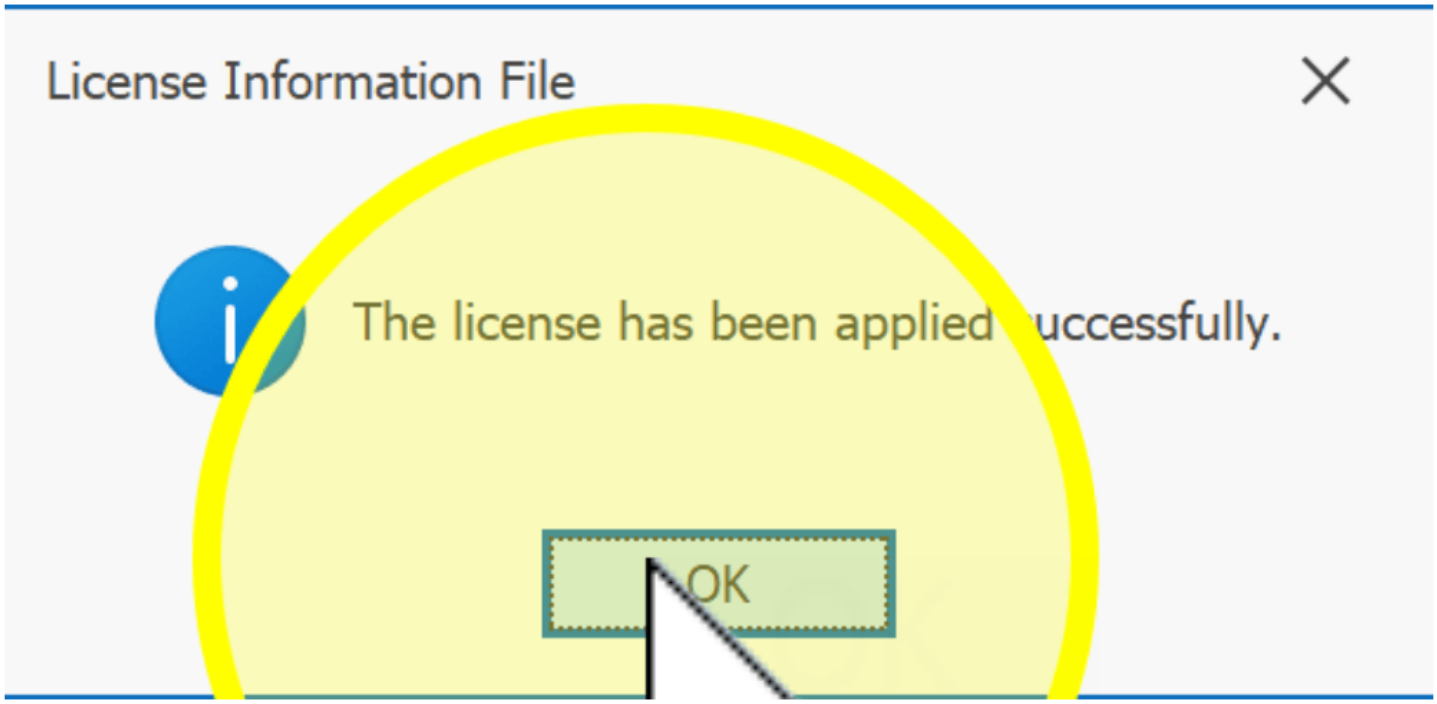

After submitting your license, please notify our support team by email so the license can be approved.

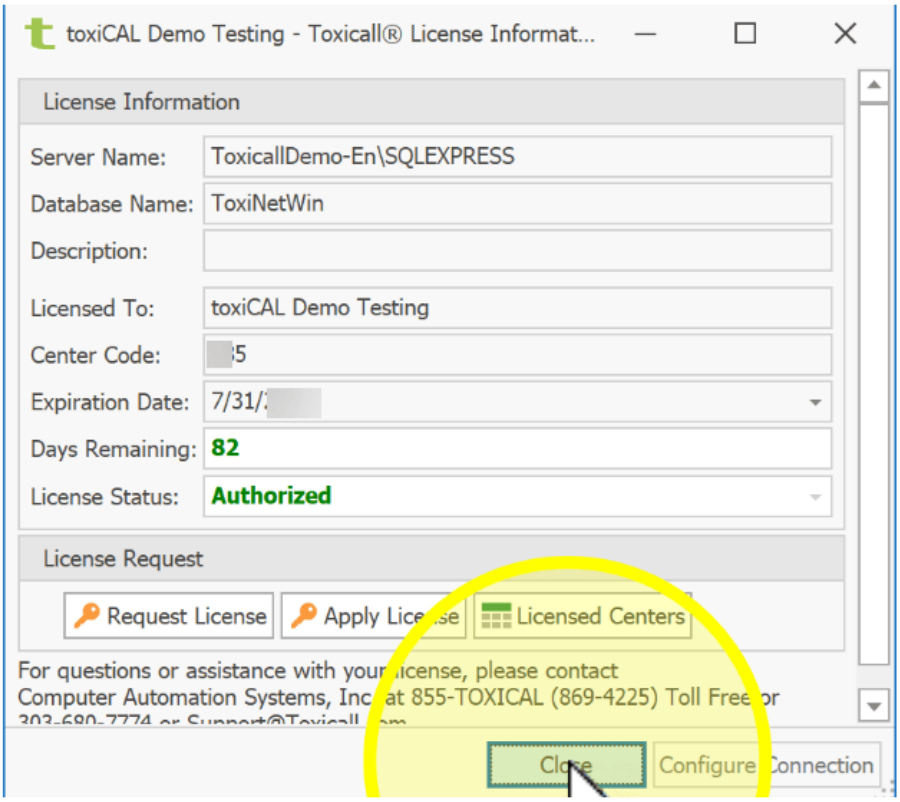

After the license has been approved, click "Apply License"
